Sponsorship Opportunities
Help Impact Our Community

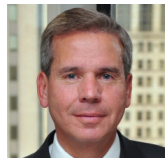

Kelberman Message...

Dr. Kelberman’s vision of providing autism services right here in our area is a personal story that resonates with all of us. When a child or loved one needs help, we would all do whatever we can to ensure that they receive the services they need. So too did Dr. Kelberman, as he founded our Center in 2005 with a dream for better, closer care for all children with autism in our community. With 1 in 36 children in the United States currently born with autism, the need for services for children, adults and their families within our community is crucial.

Through Kelberman’s fundraising event, Pedal for Autism, we help Kelberman to provide autism support and services to children, adults and families within our community. It is generous sponsors like you that make the difference, ensuring that these services continue into the future! We look forward to partnering with you for our 2024 Pedal for Autism.

Thank you!

“As the Pedal for Autism Event Chair and Kelberman Board Member, I would like to personally thank all riders, sponsors, donors and volunteers for your participation in this event. We raise money to provide autism support and services for children and adults in our community, and I am so proud to welcome you as a part of this group of riders and friends for a fun and relaxing morning, all for a great cause.”
~Frank Behlmer
